INVESTMENT PROJECT

Project: Creating a modern meat-processing plant "Malik"

Project description

Creating an effective organization of a meat processing plant in order to create a closed production cycle: from raising livestock to deep processing, using it for sorting and further marketing it to the domestic and foreign markets.

The concept of the project involves the creation in the Kyrgyz Republic meat factory with a capacity of up to 10 tons of finished product per day. After the project is completed, the enterprise will become the largest in the country.

The key feature of the project is production - the meat processing plant will produce Halal products.

The Goal of the project

To increase the production of meat and its products, by stimulating local farmers, to increase the employment of the able-bodied rural and partly urban population.

Objectives of the project

- Obtaining high-quality, export-oriented, competitive products for sale in the domestic and foreign markets;
- Uninterrupted provision of products to the population of the Kyrgyz Republic and other countries;

- Profit from the results of production and sales of products;
- Organization and provision of new workers in the enterprise's production facilities for rural residents, solution of their social issues.

This project involves the creation of a new modern meat processing plant with the use of foreign equipment that meets international standards.

Planned results

- Construction of a modern meat processing plant with engineering and technological equipment "turnkey";
- Acquisition, delivery of basic and auxiliary materials for production (working capital, etc.);
- Deployment, recruitment and training of personnel;
- Start of production and production of meat processing plant.

Profitability

Total investment	IO	7345 thousand USD
Net revenues	B	7345 thousand USD/year
Payback period	PO	5 years
Payout period	PB	6 years
NPV		7345 Thousand USD
Profitability of the business project(annual interest rate		24%

Equity	-	Thousand USD
Grants/other sources	-	Thousand USD
National loan	-	Thousand USD
Foreign loan	7345	Thousand USD
Total investment	7345	Thousand USD

Investment climate

- Kyrgyzstan is located next to the fastest growing economies of the region, such as Kazakhstan, China and Russia
- Kyrgyzstan is the only country in the region a WTO member
- The country has laws that protect investors and provide them with the same rights along with domestic investors
- Kyrgyzstan occupies a leading position in the region for political and economic freedoms
- The country has the lowest corporate income tax among CIS countries (10%)
- The most liberal customs legislation in the region
